---

## SKILLS

---

- **Languages** Java, SQL, Python, HTML/CSS, JavaScript, C, L<sup>A</sup>T<sub>E</sub>X
- **Frameworks** Flask, Spring, Node.js, Android SDK, React, Materialize
- **Libraries** SQLAlchemy, BeautifulSoup, boto3, NumPy, scikit-learn
- **Database** Stored Procedures, Functions, Triggers, Indexes
- **Workflow** Linux, Git, JIRA, Jaspersoft Studio, Heroku

## WORK EXPERIENCE

---

### Stonewain Systems, Inc.

September 2018 – Present

– *Software Developer*

Berkeley Heights, NJ

- Tuned stored procedures to reduce report runtimes from 5 minutes to 48 seconds, saving clients valuable time
- Re-engineered reports in Java using the Apache POI Excel library in order to enhance functionality and usability
- Technically implemented business objects and algorithms in Java Spring framework to solve complex problems
- Incubated a data-analytics project that utilizes machine learning algorithms to predict securities lending rates

June 2018 – September 2018

– *Software Developer Intern*

Berkeley Heights, NJ

- Designed, implemented, and tested client reports using Jasper templates and Oracle 12c stored procedures
- Reconciled discrepancies in client reports and updated them based on new requirements and system changes

### Archangel Raphael's Mission

October 2017 – April 2018

– *Software Engineer Intern*

New Brunswick, NJ

- Developed and maintained the website at armnewbrunswick.org for a local charity with 100% uptime
- Designed the front-end using Python's Jinja templating engine, Bootstrap, JavaScript, and JQuery
- Utilized a Flask REST API to serve the templates and integrated Stripe API to accept donations

## PROJECTS

---

### Messenger Client

July 2018

- Developed a robust React-based IM client that communicates with a Node multi-server using Socket.IO
- Utilized mesh topology server architecture to establish and maintain connections between server instances
- Implemented scrollable message history, recipient status notifications, and automatic thread switching

### Safe Alarm IoT Network

April 2017

- Collaborated in a team to develop an IoT network that can detect and notify users when in-house alarms ring
- Built the Android app featuring user authentication, alarm pairing via QR-code scanner, and push notifications

## EDUCATION

---

### Rutgers University

September 2014 – May 2018

B.S. in Computer Science and Computer Engineering

New Brunswick, NJ

### Awards & Certifications

- Visharad Purna (Bachelor's Degree) in Tabla – issued by Madhyam (January 2020)
- 4<sup>th</sup> Place, HackRU – Rutgers University, New Brunswick (April 2017)
